## **MINEX DRILL**

It was established in 2015 to provide professional service to the mining sector with its knowledge, experience and expertise. Its aim is to use machinery and equipment suitable for today's technology to maximize efficiency with more economical projects and its high-quality and professional staff. It carries out its projects by adopting principles on health, work safety and environment.

**MINEX DRILL** operates to achieve its goals

Responsible for successfully completing the project to high standards. It attaches great importance to the development of society and lifestyle in the region where it operates and to maintaining respectful relations with local employees.

### **Our main goals are;**

- >Customer-oriented and trust-based quality service,
- >Continuous increase in efficiency in technical and management services provided,
- >Increasing work safety and zero accidents,
- >Environmentally sensitive work and planning,
- >Development and establishment of cooperation and teamwork,
- >Establishment of high efficiency and quality awareness,
- >The goal of reaching more beautiful and perfect.

LOW COST HIGH EFFICIENCY

## Core

Core drilling provides critical information in many areas such as geology, mining, engineering and ground surveys. Core samples enable detailed analysis of geological structures in the field.

**MINEX DRILL** is committed to keeping core drilling efficiency at the highest level in national and international standards.

## Our Commitment to Quality

>As **MINEX DRILL**, we prioritize employer satisfaction and strive to fulfill our customers' diverse demands promptly and impeccably with our advanced, modern, and state-of-the-art machinery. Our objective is to deliver essential services through our experienced team within the evolving and expanding business landscape, positioning ourselves among the industry's leaders. **MINEX DRILL**'s policy is to structure and execute our operations with a focus on customer satisfaction. We are confident that this commitment will foster quality and trust.

## Vision

>We are an innovative and continually evolving organization that leverages all technological advancements within our sector. We deliver reliable, employer-focused, and high-quality services, uphold the rights of both employers and employees, and cultivate a skilled workforce in the industry.

## Mission

>Our objective is to establish ourselves as a recognized organization capable of delivering reliable and high-quality services across all sectors in which we operate, leveraging our professionalism and collaborative efforts.

## Our tenets

- > Diversity,
- > Open-mindedness,
- > Mutual respect,
- > Clear goals,
- > Determination,
- > Leadership; are our corporate principles.

## Client Contentment

>Customer satisfaction regarding the services we offer reflects our level of professionalism. We deliver quality, reliable, healthy, and timely services to ensure customer satisfaction.

## Employee Engagement

>We emphasize to our employees that the primary contributor to success is teamwork and remind them that they are integral members of this team.

WE ARE BUILDING TOMORROW FROM TODAY WITH  
THE CONSCIOUSNESS OF OUR RESPONSIBILITY

## Occupational Health and Safety

As **MINEX DRILL**, we believe that proper and efficient work can only be carried out in a safe and healthy working environment. **MINEX DRILL** aims and undertakes to comply with national and international legal regulations, laws, legislations and other obligations regarding occupational health and safety in all processes, to prevent occupational accidents that may occur by following sectoral and technological developments, to continuously improve occupational health and safety performance, to use all equipment in the most accurate and efficient way, to analyze and evaluate occupational accidents that may occur from the beginning to the end of the projects to be worked on, to take precautions with the necessary equipment, and to ensure that all of our employees, from the highest unit to the lowest unit, receive training on occupational health and safety.

It aims and undertakes to create occupational health and safety responsibility and to increase this awareness.

**MINEX**  
**DRILL**

We are at your service with our machines equipped with the latest technology.

## Environment

As **MINEX DRILL**, based on sustainable development and environmental protection concepts, in all processes, we aim and undertake to:

- with national and international legal regulations, environmental laws, legislation and other obligations,
- Follow sectoral, scientific research and technological developments on the environment, prevent environmental pollution and continuously improve environmental performance,
- Protect natural resources and use them in the most efficient way,
- Keep under control and reduce environmental impacts that occur and may occur in projects from the beginning to the end,
- Reduce or recycle wastes that will occur during the works as much as possible,
- Increase the environmental responsibility awareness of all our employees from the highest to the lowest units by providing environmental training to all our employees.

## Our Offerings

The primary philosophy of our drilling team, composed of experienced and committed drillers at **MINEX DRILL**, is:

- > Excellence,
- > Eco-friendly,
- > In a manner that facilitates the employer in attaining their objectives to deliver drilling services in collaboration with the employer.

**MINEX DRILL** core; RC; reverse circulation and multi-functional drilling machines is providing.

- > Wireline Surface Core Drilling
- > Wireline Underground Core Drilling
- > Air and Mud Rotary Drilling
- > Conventional Core Drilling
- > Reverse Circulation (RC) Drilling
- > RAB Drilling
- > Rapid Drilling for Grade Control
